

ABS (NAT/BLK)

Product Name : Acrylonitrile Butadiene Styrene
Product Code : ABS
Availability : Yes

Product description:

DYNEX ABS provides ideal properties for the mock-up application. Its internal stress is completely removed through DYNEX's unique annealing process, resulting in the excellent machinability and dimensional stability. With its' wide size range, DYNEX ABS can be easily machined into any kind of design, fulfilling a variety of customers' needs.

Main characteristics

- Excellent in machinability
- Dimensional stability
- Wide size ranges

Main applications

Mock up applications
