

# PP

**Product Name** : Poly Propylene  
**Product Code** : PP  
**Availability** : Yes

## Product description:

DYNEX PolyPropylene stock shape is also widely used in a variety of application due ot the economical price and adaptability to food contact parts. It provides the higher hardness than HDPE. Its high resistance to chemicals makes it suitable for the parts in chemical facilities and electroplating facilities. DYNEX provides a wide range of sizes in response to a variety of customers' requests.

## Main characteristics

- Economical
- Adaptable to food contact parts
- Wide size range
- Various application

## Main applications

Cutting board, Chemical tank, Electroplating facility, etc.
